

Global Health Impact Travel Insurance Information

As part of your upcoming Global Health Impact (GHI) experience, **GHI provides every traveler with standard reimbursement-based travel and medical insurance through Faith Ventures.** This coverage is included in your trip cost and activated automatically for your travel dates.

Below is an overview of how your insurance works and what you need to know before traveling:

Included Insurance Coverage

Global Health Impact purchases **reimbursement travel insurance** through **Faith Ventures**, which provides essential coverage for:

- Emergency medical care
- Emergency evacuation
- Trip interruption
- Lost or delayed baggage
- Other standard travel protection benefits

Please review the full policy provided to your **Team Ambassador** for specific details about limits, exclusions, and coverage requirements.

Reimbursement Process

This insurance functions on a **reimbursement basis**, which means:

- **You are responsible for paying any medical or travel-related expenses up front while in-country.**
- You will then **submit your receipts and required paperwork to Faith Ventures** for reimbursement.
- **All reimbursement claims must be submitted within 30 days** of returning from international travel.

Be sure to keep **all receipts, medical reports, and documentation**, as Faith Ventures will require proof of payment and services rendered.

Optional Coverage Upgrades

If you would like to add **additional or enhanced travel insurance coverage**, you are welcome to do so. Students may upgrade their policy directly by contacting **Faith Ventures** at:

[Faith Ventures - Travel Insurance for Mission Trips](#)

Please inform them that you are part of a **Global Health Impact group policy** and wish to upgrade coverage at your own expense.

More Information

For full policy details, including coverage limits and claim instructions, please refer to the **Faith Ventures insurance packet provided to your Team Ambassador** or email missioncontrol@ghitrips.com
